WHERE THE GROSS ₹70,42,168 WENT

**MANAGEMENT SUMMARY**

August 2026 closed as the strongest trading month of the financial year to date. Gross coupon sales of **₹70,42,168** across 14,286 seller listings and 14,742 buyer orders were up **11.39%** on July, driven by the mid-month Independence Day window in week 3 (₹18,84,952 — 26.77% of the month's gross coupon sales). Sellers were settled at the full listed coupon code price totalling **₹56,12,450**, of which **₹48,96,220 (87.2%)** has already been paid out and ₹7,16,230 remains in processing or pending. After refunds of ₹1,43,508, payment gateway fees of ₹1,42,124 and other marketplace charges of ₹51,288, net distributable revenue reached **₹5,08,145** — up **14.77%** month-on-month, with net margin expanding 22 bps to **7.22%**. All settlement, payout and distribution ledgers agree; the month closes with a reconciliation variance of **₹0**.

02 Revenue Overview

GROSS COUPON SALES TO FINAL PLATFORM REVENUE · AMOUNTS AND SHARE OF GROSS SALES

SaveHatke operates without a seller commission. Every seller is settled at **100% of the listed coupon code price**; platform revenue is earned entirely through the buyer-side platform service fee applied at checkout, which averaged **12.50%** of the listed price (**11.11%** of buyer-paid value) in August 2026.

### REVENUE DISTRIBUTION

|                |           |
|----------------|-----------|
| Admin 1 · 40%  | ₹2,03,258 |
| Admin 2 · 40%  | ₹2,03,258 |
| Platform · 20% | ₹1,01,629 |

Admin revenue is a distribution of net distributable revenue, not an additional charge on sales. Seller revenue, platform service fee revenue and admin revenue are mutually exclusive and are never counted twice: seller revenue is settled before the fee pool is formed, and admin plus platform allocations together equal exactly 100% of net distributable revenue.

### REFUND IMPACT ON REVENUE

Seller settlement reversed **₹1,27,563** Service fee revenue forgone **₹15,945** Gateway fees non-recoverable **₹3,157**

Net revenue impact of August refunds was **₹19,102** — 0.27% of gross coupon sales and 3.76% of net distributable revenue. Seller settlement reversed on refunded orders is recovered from seller balances and carries no platform cost; only the forgone service fee and non-recoverable gateway charge reduce revenue.

August 2026 closed as SaveHatke's strongest revenue month to date. Gross coupon sales of ₹70,42,168 converted into settled sales of ₹63,14,007, from which sellers received their full listed coupon price of ₹56,12,450 and the marketplace earned ₹7,01,557 in buyer-side service fee revenue. After fees and charges of ₹1,93,412, net distributable revenue of ₹5,08,145 was allocated 40% to Admin 1, 40% to Admin 2 and 20% to the SaveHatke platform. All ledgers agree and the month closes with a reconciliation variance of ₹0.

### KEY TAKEAWAYS

- Revenue outpaced volume.** Net distributable revenue rose 14.77% against 10.68% growth in coupons sold, because the buyer-side service fee held firm at 12.50% while average sale value edged up to ₹488.93.
- Marketplace liquidity improved.** 12,914 coupons settled across 11,842 transactions, lifting the purchase completion rate to 87.60% and the sales completion rate to 90.40%.
- Sellers were paid in full.** ₹48,96,220 was released during the month — 87.24% of entitlement — with no commission deducted at any stage, in line with the 100% listed-price payout model.
- Reversals stayed contained.** Refunds and cancellations of 6.76% by value cost only ₹19,102 of revenue, equal to 0.27% of gross sales, as reversed seller settlements are fully recoverable.
- Processing cost is the margin lever.** Fees of ₹1,93,412 absorbed 27.57% of service fee revenue; a 20 bps improvement in gateway pricing would add roughly ₹12,900 of net revenue a month.
- September opens with a known liability.** ₹8,62,160 carries forward — ₹7,16,230 owed to sellers, ₹65,500 to admins, ₹56,516 of unwithdrawn admin balance and ₹23,914 of refunds under review.

### BASIS OF PREPARATION

Prepared from SaveHatke coupon marketplace, settlement and payout records for the period 1 August 2026 to 31 August 2026, generated on 1 September 2026. Amounts are in Indian Rupees and rounded to the nearest rupee; percentages are rounded to two decimals and may not sum exactly to stated totals. Sellers are paid 100% of the listed coupon code price with no commission deducted; platform revenue arises solely from the buyer-side service fee applied at checkout, so seller revenue, platform service fee revenue and admin revenue are mutually exclusive and no amount is counted twice. Revenue distribution follows the configured 40% / 40% / 20% split between Admin 1, Admin 2 and the SaveHatke platform. This report contains financial and marketplace performance information only; it deliberately excludes customer and seller personal information, account identifiers, contact details, login and session data, security and incident information, support cases, chatbot records, audit logs, device and network details.
